– Для изготовления фасада под стекло в бланке заказа необходимо указать аббревиатуру «СТ»

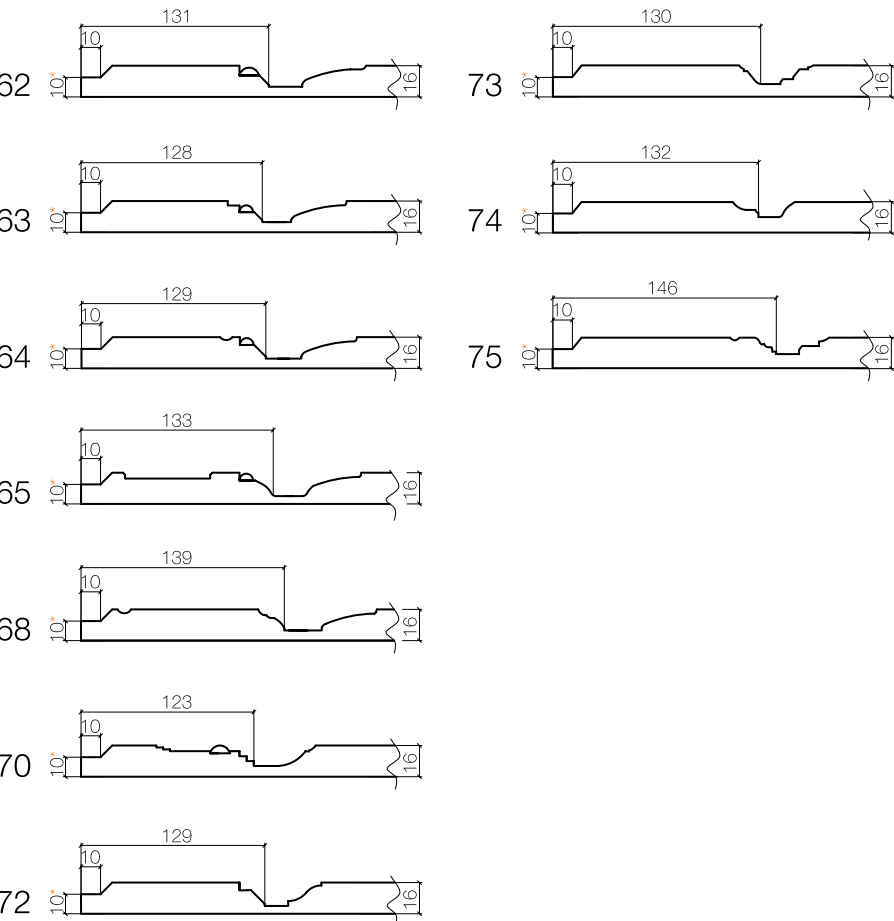

– На эскизе фасада схематично проставить аббревиатуру «СТ» на филенке, где будет произведена фрезеровка сквозного проема (в месте установки зеркала или стеклоизделия). Выборка 4x10 с обратной стороны фасада будет произведена автоматически.

Рекомендация: Зеркало крепить на фасаде в выборке 4x10 при помощи герметика и дополнительно фиксировать при помощи панели толщиной не более 3 мм.

*Выборка под стекло не изготавливается в месте установки декоративного элемента.

Сечение внешней рамки фасада

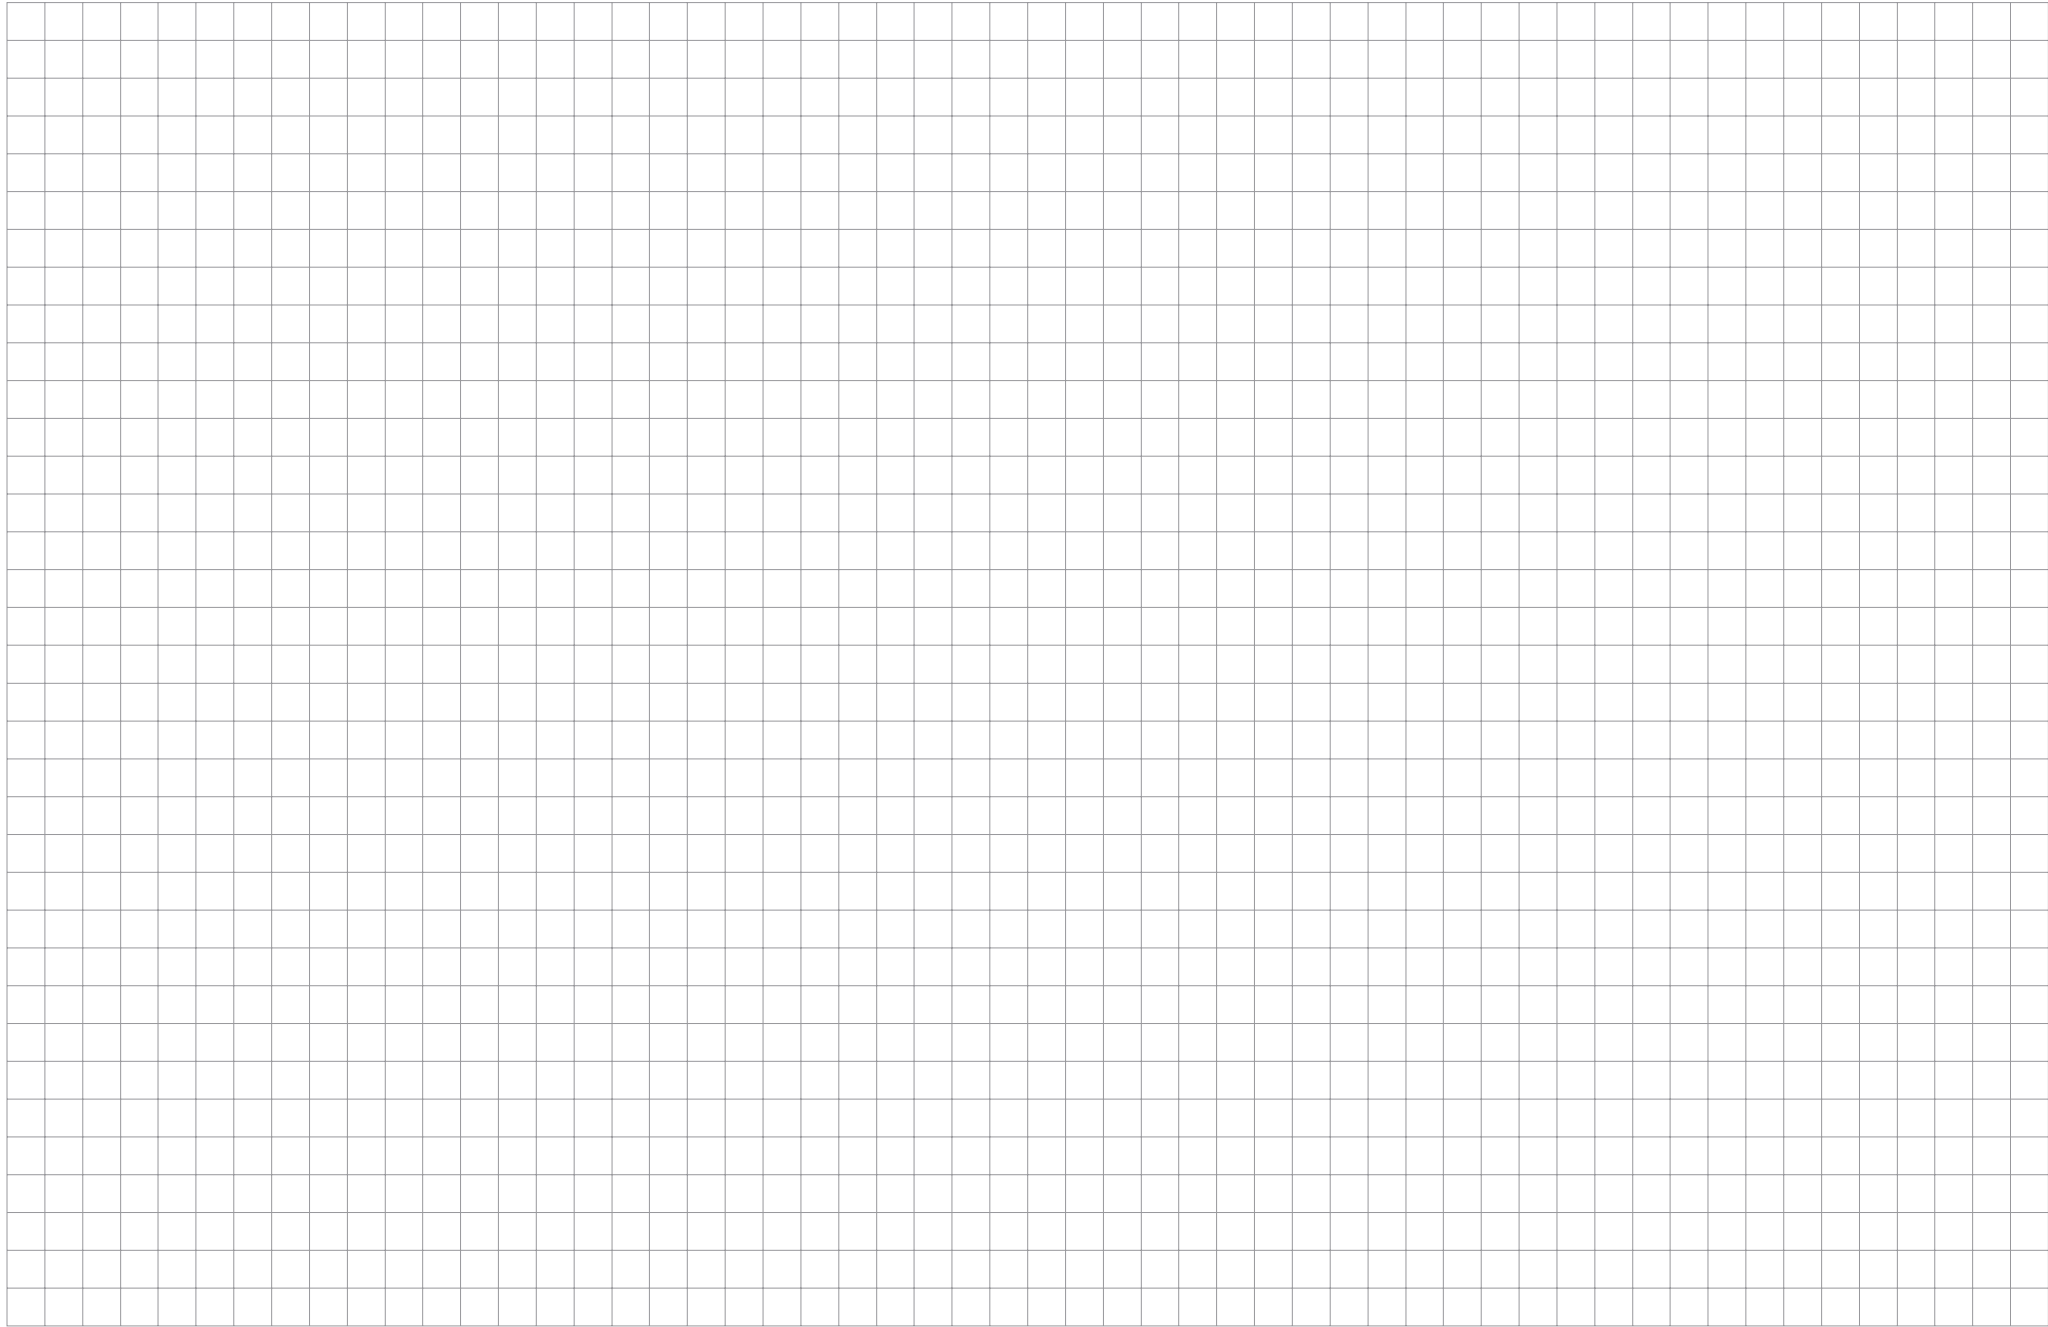

*Допуск 10+0,2 мм

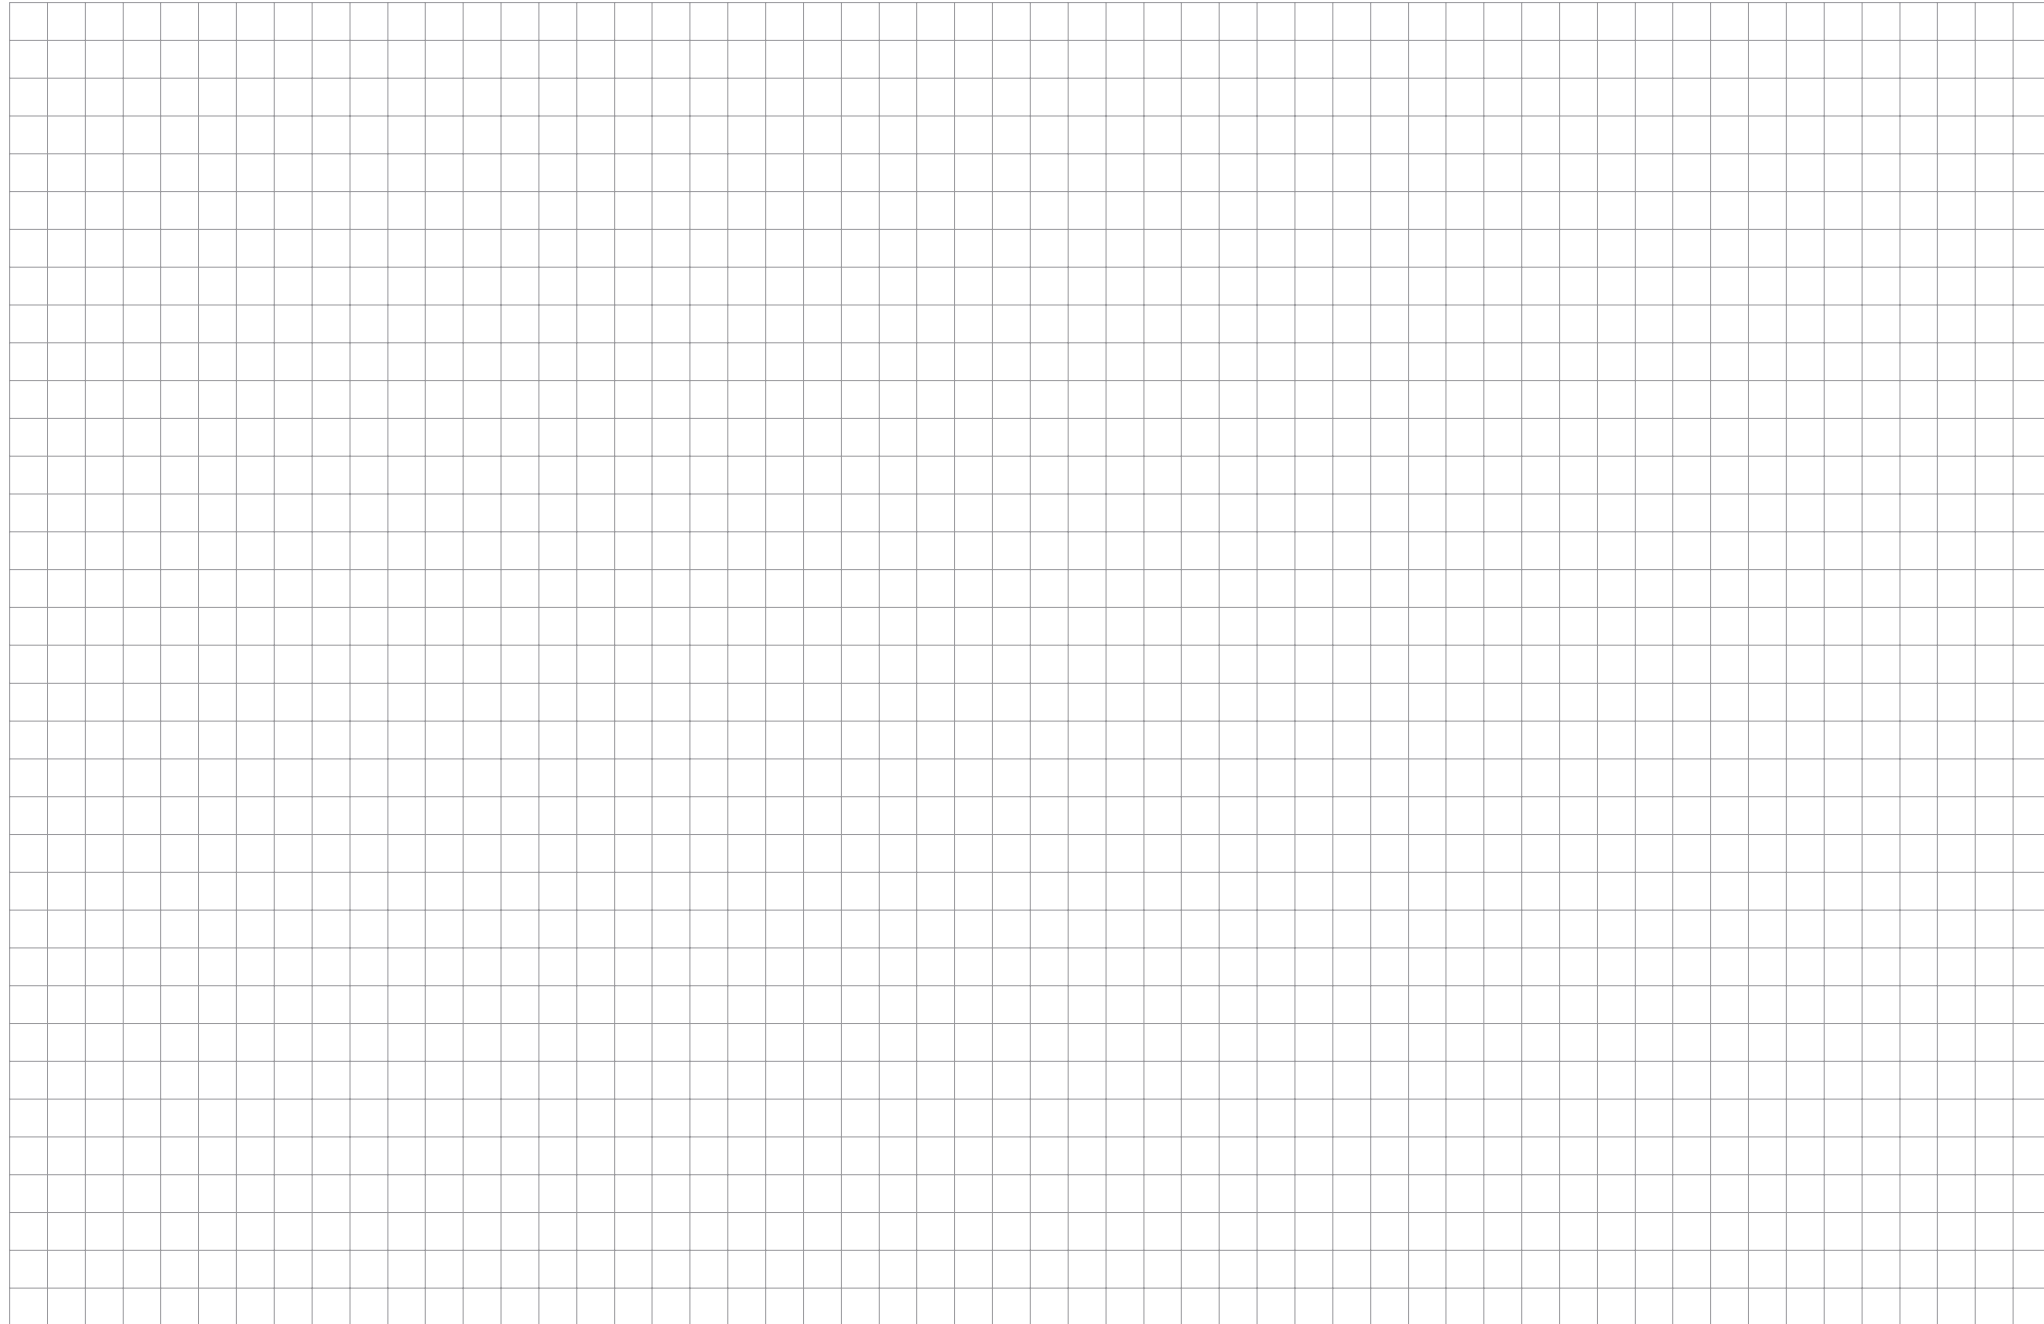

⚠ Фасады изготавливаются в толщине 16 мм
